

Dear Parents of Current 5th Graders:

St. Francis Xavier has made some significant improvements in our Math program over the years with the addition of the Simple Solutions Math Program. We, at St. Francis Xavier, are committed to the continued success of our students. Research shows that students can lose up to two months of Mathematics skills over the summer. That's 60 days of knowledge! It then takes your child's teacher up to 6 weeks to bring your child up to speed in the fall.

In order for us to keep our Middle School Students on the right track, St. Francis Xavier School is **requiring** that current **5th, 6th and 7th graders** complete the Summer Solutions Math series over the summer and return the book to your child's teacher in the fall.

The Summer Solutions Math book is 3 lessons per week. That's **ONLY** about 10-15 minutes per page, 3 days a week to help your child continue to thrive in their Math abilities. No glitz, no glam, just a continued intense focus on the important concepts. This continuation of an already widely beneficial supplementary program will prepare your child to return to school in the fall ready to move ahead at a faster pace and perform better on standardized tests.

Each book is affordably priced at just \$16.99, which includes shipping and will be sent directly to your home.

Please refer to page 2 of this memo for ordering instructions.

If you have any questions, please do not hesitate to contact me at: nburns@sfxmedina.org

Sincerely,

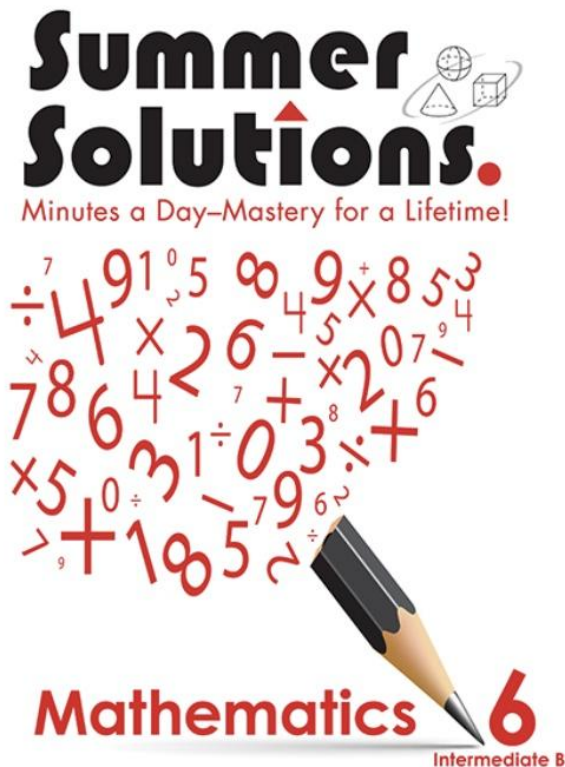

Nick Burns
St. Francis Xavier
Middle School Math Teacher

<p>Use Promo Code PROMO CODE: 2022SH to receive a discount if you order 3 or more books. 20% off if ordered by Feb 28 10% off if ordered by April 30</p>
